

Terre de Lin

# FLAX BEDDING LINABOX®

## PRODUCT ADVANTAGES

- ✚ **HYPER-ABSORBENT** up to 12 times more absorbent than straw and 4 times more than wood shavings
- ✚ **DUST-FREE** thanks to advanced screening and suction technology
- ✚ **COST-EFFECTIVE** more affordable than wood shavings
- ✚ **REDUCED WASTE** easier manure separation during cleaning
- ✚ **MORE ECO-FRIENDLY MANURE** can be recycled into rich, neutral pH organic compost

## 3 POSSIBLE USES

- **AS STANDALONE BEDDING**  
100% Linabox bedding (ecological, natural and plant-based)
- **MIXED WITH WOOD SHAVINGS** (Standard or Large Flakes)  
The perfect combination of absorbency and volume
- **AS UNDERLAYER BELOW STRAW** Linabox bedding significantly boosts urine absorption — ideal for breeding stalls

## PACKAGING OPTIONS

- Up to 36 bales/pallet (height 2.75 m)

### Pallet size: 1.20 m × 1.60 m

- From 36 bales/pallet (height 1.45 m)
- Up to 78 bales/pallet (height 3.00 m)

Harvested and produced in our factory in Normandy.

Terre de Lin

## COMPOSITION

Natural, ecological flax straw (anas de lin), plant-based and produced by farmers of the Terre de Lin Group located in France (Normandy).

## AVERAGE WEIGHT

Approx. 20 Kg

Since flax shives are 100% natural, actual weight may slightly vary based on density and moisture content.

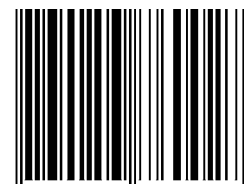

## EFFORTLESS ADVANTAGE

Quick and easy to loosen – fast to set up in stalls.

## STORAGE ADVANTAGE

Linabox flax bedding pallets are protected with a waterproof cover, ensuring safe outdoor storage.
